

II - GENERAL ASSEMBLY — OVERALL VOTES

There were 88 recorded plenary votes at the 56th session of the UN General Assembly (UNGA), including two at the special emergency session on the Middle East which have been included in the tabulations in this report. Of these 88 votes, 69 were on resolutions as a whole, 15 on separate paragraphs, 1 on a motion, 1 on an amendment, and 2 on decisions. Of these 88 votes, the United States voted Yes 19 times and No 52 times; it abstained on 17 votes.

COMPARISON WITH U.S. VOTE

The tables that follow are based on the 71 instances the United States voted either Yes or No in plenary. Columns show the number of times the United States and the country listed cast identical (Yes/Yes or No/No) and opposite (Yes/No or No/Yes) votes, as well as the number of times the country abstained and was absent for these 71 votes. Voting coincidence percentages are derived by dividing the number of identical votes by the total of identical and opposite votes, the same method used in all previous editions of this report. The column headed “Voting Coincidence (Including Consensus)” presents the percentage of voting coincidence with the United States after including consensus resolutions as additional identical votes. Extent of participation was also factored in (see the methodology section in the Introduction).

Section II has five parts: (1) lists of UN member states alphabetically and in rank order by voting coincidence percentage; (2) lists of countries by UN regional group, in rank order by voting coincidence percentage; (3) lists of countries by other important groups, again in rank order; (4) a comparison of 2001 voting coincidence percentages with those of the preceding five years; and (5) a side-by-side comparison of each country’s voting coincidence with the United States and our best calculation of the amount of bilateral U.S. assistance provided to that country in fiscal year 2001 from the Foreign Operations, Export Financing, and Related Programs Act and P.L. 480 funds.

Countries with asterisks in the Voting Coincidence columns did not vote during the session. Under Article 19 of the UN Charter, Central African Republic, Guinea-Bissau, Iraq, Kyrgyzstan, Liberia, Niger, Sao Tome and Principe, Somalia, Tajikistan, and Uzbekistan did not vote at the 56th UNGA because their financial contributions were in arrears.

The United States again voted No in plenary more often than any other UN member (35 percent of U.S. No votes were with three or fewer countries) and voted No alone 5 times (about the same as in most other recent years, but far fewer than the 20 times in 1989). The United States voted with only one other country 7 times (5 times with Israel and 2 times with the United Kingdom). On several other occasions the United States was joined in a No vote by Israel and one or more other countries (usually Marshall Islands, Micronesia, Tuvalu, France, the United Kingdom, Monaco, or Russia). The U.S. votes in isolation were on a conference on the Comprehensive Nuclear Test Ban Treaty, use of economic sanctions as a means of economic coercion, and separate paragraphs in resolutions on Palestine and human rights. Votes with Israel were on issues regarding the Middle East but included support on some arms control and human rights issues and the U.S. embargo of Cuba. Those with the United Kingdom and France were on decolonization and arms control issues.
